

**Army Corps of Engineers report language to continue the Corps of Engineers' emergency authority related to aquatic invasive species.** □ In Fiscal Year 2010, the barrier project received \$5.8 million, and the Interbasin Study received \$269,000. The proposed Fiscal Year 2011 budget provides \$5.2 million for construction, \$7.45 million for operations, and \$400,000.

The entity to receive funding for this project is: Army Corps of Engineers, U.S. Army Engineer Division, Great Lakes & Ohio River Division, 550 Main Street, Room 10032, Cincinnati, Ohio 45202-3222.

**City of Toledo, OH Wastewater Improvements: \$2 million from Section 594, Ohio Environmental Infrastructure, Army Corps of Engineers Construction**

Under a consent decree from EPA, this ongoing project has invested millions and has a long history of Sec. 594 funding.

The entity to receive funding for this project is: City of Toledo, One Government Center, 640 Jackson, Suite 2200, Toledo, OH 43604.

**Coastal Wind Ohio, OH: \$1.2 million from Department of Energy, Energy Efficiency and Renewable Energy, Wind** for Phase II of this project to complete the placing of large-scale wind research sites along the Lake Erie Coastline.

The entity to receive funding for this project is: Bowling Green State University, Bowling Green, Ohio 43403-0001.

**Erie County, OH Flood Mitigation Plans: \$100,000 Army Corp of Engineers, General Investigations:** In WRDA 2007, this county was specifically identified in bill language as facing added challenges from flood damage reduction activities for the County.

At the request of the County government, this project analyzes the flood risk potential for areas of the county that have seen repeated flooding.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Great Lakes Regional Dredging funds for Army Corps of Engineers Great Lakes Navigation** , **\$10 million** to be allocated by the Corps based on needs within the region.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Huron Harbor, OH: \$500,000 from Army Corps of Engineers Operation and Maintenance:** It seems likely that the capability and need for this harbor will increase significantly.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Interbrain Study: \$2.5 million Army Corps of Engineers**to continue the Interbasin Study to consider alternative approaches to prevent interbasin transfers of aquatic nuisance species.

The entity to receive funding for this project is: Army Corps of Engineers, U.S. Army Engineer Division, Great Lakes & Ohio River Division, 550 Main Street, Room 10032, Cincinnati, Ohio 45202-3222.

**Ohio Lake Erie Recreational Dredging: \$3 million funds for Army Corps of Engineers for shallow draft harbors along Lake Erie**

,  
to be allocated by the Corps based on needs within the region.

The entity to receive funding for this project is: Army Corps of Engineers, U.S. Army Engineer Division, Great Lakes & Ohio River Division, 550 Main Street, Room 10032, Cincinnati, Ohio 45202-3222.

**Ottawa River Navigation: \$3.3 million from Army Corps of Engineers General Construction** to dredge at this harbor to serve thousands of boat slips currently with limited access to the waterway.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Ottawa River, Ohio: \$3.3 million from Army Corps of Engineers Construction General t** o dredge and construct a dredged disposal facility capable of placing large quantities of sediment out of Lake Erie Western Basin.

The State of Ohio has proposed banning open lake disposal and this project would provide the capacity to store this material in compliance with State requirements.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Remedial Action Plans \$4 million:** For technical assistance to Remedial Action Plans (RAP).

The entity to receive funding for this project is: Army Corps of Engineers, U.S. Army Engineer Division, Great Lakes & Ohio River Division, 550 Main Street, Room 10032, Cincinnati, Ohio 45202-3222

**Maumee Remedial Action Plan \$60,000:** For technical assistance to Remedial Action

Plans (RAP).

The entity to receive funding for this project is: Army Corps of Engineers, U.S. Army Engineer Division, Great Lakes & Ohio River Division, 550 Main Street, Room 10032, Cincinnati, Ohio 45202-3222.

**Sandusky Harbor, OH: \$1.02 million from Army Corps of Engineers Operation and Maintenance** To keep commerce flowing on this commercial and federally maintained channel.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Science & Technology for Producing Algal Biofuels Bowling Green State University \$700,000 from the Department of Energy, Energy Supply, Energy Efficiency** will develop the science and technology for the production of algal biofuels produced from algal ponds co-located with food processing, live-stock and power generating facilities.

The entity to receive funding for this project is: Bowling Green State University Firelands Campus, One University Drive, Huron, OH 44839.

**Chicago Sanitary & Ship Canal, Dispersal Barrier, IL: \$23.65 million for the electric dispersal barriers in the Chicago Sanitary & Ship Canal** This project is designed to prevent invasive species such as the Asian carp and quagga mussel from spreading to different basins.

The entity to receive funding for this project is: Army Corps of Engineers, U.S. Army Engineer Division, Great Lakes & Ohio River Division, 550 Main Street, Room 10032, Cincinnati, Ohio 45202-3222.

**Toledo Harbor Maumee River & Lake Channel Project: \$200,000 from Army Corp of Engineers, General Investigations.**

Each year, the Corps removes more sediment from the Toledo Harbor than any other port on the entire Great Lakes. This project would study the cost and time savings for realigning the channel to decrease sedimentation in the federal channel.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Toledo Harbor, OH: Harbor Maintenance \$8.347 million, from Army Corp of Engineers, Operation and Maintenance**  
for Toledo Harbor operation and maintenance.

Over the past few years, limited federal funds have hampered shipping and have lead to a backlog of dredging, causing problems for the shipping community.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Toussaint River, OH: \$605,000 from Army Corps of Engineers Investigations** to dredge this recreational harbor, providing that unexploded ordinance deposited at this site during Army dumping at this site from 1917-1967 be removed at federal expense.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Vermilion River, OH: \$100,000 Army Corps of Engineers Construction General-Continuing Authorities Program Section 111** to dredge the river.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Western Lake Erie Basin, OH, IN, & MI: \$858,000 from Army Corps of Engineers**

**General Investigations:**

This appropriation is required to produce a basin-wide report that the Army Corps of Engineers is scheduled to issue in the coming year.

The FY 2009 appropriations provided less than half of the amount required to complete work during the year.

The increased request will enable the partnership to move toward construction and implementation.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**Wynn Road, Oregon, OH: \$250,000 Army Corps of Engineers Construction**

**General-Continuing Authorities Program Sec 204:** With the State of Ohio moving forward with a plan to deny a permit to open lake dumped dredged material, these beneficial use projects are critical for allowing the port to stay open during upcoming years.

The entity to receive funding for this project is: Buffalo Corps of Engineers, 1776 Niagara Street, Buffalo, NY 14207.

**University of Toledo, Energy and Innovation Infrastructure Pilot Project in fiscal year 2011.** The funding would be used to integrate alternative energy transmission infrastructure with emerging alternative energy technologies and test new procedures for implementing these intermittent electricity sources with the electric grid. The entity to receive funding for this project is: University of Toledo 2801 W. Bancroft Street Toledo Ohio 43606.
